

EPRI ENERGY SYSTEMS AND CLIMATE ANALYSIS GROUP RESEARCH ON THE VALUE AND COSTS OF NUCLEAR GENERATION

LAST UPDATED: APRIL 2023

This is a summary of all of EPRI's Energy Systems and Climate Analysis (ESCA) Group's research on nuclear power generation. Web links are included where available. Publications marked with an * are available to the public free of charge or are published in academic journals. Other publications are available to EPRI member companies that fund certain program(s), and can be purchased by members of the public who may be interested in doing so, subject to EPRI's product distribution requirements. For a full listing of ESCA research that is free to the public, please visit the ESCA public website at <http://esca.epri.com/research.html>. To receive the ESCA group's quarterly newsletter with research updates, please email your request to eea@epri.com.

About EPRI

Founded in 1972, EPRI is the world's preeminent independent, non-profit energy research and development organization, with offices around the world. EPRI's trusted experts collaborate with more than 450 companies in 45 countries, driving innovation to ensure the public has clean, safe, reliable, affordable, and equitable access to electricity across the globe. Together, we are shaping the future of energy.
